References Part 1 – News and Websites (No PDF)

Nov 11, 2026 · @Baim

This file holds the 19 sources that exist only as web pages: news articles, government announcements, organisation websites and online calculators. None has a downloadable PDF, so save a screenshot or print-to-PDF copy of each page for your records. Pages that change over time (calculators, data hubs) carry a "Retrieved" date in APA 7th; update it to the day you last open them. Journal articles, reports and standards with PDFs are in **References Part 2**.

1. Malaysian news and government announcements

Your 8th link (The Star, 6 November 2025) was already in the list, so it appears once, as item 3.

1. Bernama. (2026, October 5). *Carbon tax deferment gives NRES time to finalise regulatory, policy framework – Arthur*. https://bernama.com/en/general/news.php?id=2615811
2. Lai, A. (2026, June 18). Carbon tax delayed due to Middle East uncertainties, says Arthur. *The Star*. https://www.thestar.com.my/news/nation/2026/06/18/carbon-tax-delayed-due-to-middle-east-uncertainties-says-arthur
3. The Star. (2025, November 6). Carbon tax rate of RM15 a tonne being considered. https://www.thestar.com.my/business/business-news/2025/11/06/carbon-tax-rate-of-rm15-a-tonne-being-considered
4. The Star. (2026, June 24). National carbon tax policy in final phase, says MoF. https://www.thestar.com.my/business/business-news/2026/06/24/national-carbon-tax-policy-in-final-phase-says-mof
5. Ho, S. (2026, April 22). Malaysia launches its first carbon market policy, puts carbon tax on hold. *Eco-Business*. https://www.eco-business.com/news/malaysia-launches-its-first-carbon-market-policy-puts-carbon-tax-on-hold/
6. Free Malaysia Today. (2026, April 21). Malaysia launches national carbon market policy. https://freemalaysiatoday.com/category/nation/2026/04/21/malaysia-launches-national-carbon-market-policy

7. Free Malaysia Today. (2026, May 11). Malaysia needs a credible carbon pricing framework [Opinion]. https://www.freemalaysiatoday.com/category/opinion/2026/05/11/malaysia-needs-a-credible-carbon-pricing-framework
8. Bernama. (2026, March 13). *National Climate Change Bill unveils MRV system, basis for carbon price implementation*. https://bernama.com/en/news.php?id=2534105
9. Bernama. (2026, October 8). *National Climate Change Bill to institutionalise mandatory carbon accounting – Arthur*. https://bernama.com/en/region/news.php?id=2617024
10. Securities Commission Malaysia. (2024, September 24). *National Sustainability Reporting Framework to enhance sustainability disclosures* [Press release]. https://mondovisione.com/news/securities-commission-malaysia-national-sustainability-reporting-framework-to-e-2024924

2. International organisations, standards bodies and industry websites

The NCCS page is useful next to the Malaysian items: Singapore's carbon tax rose to S$45/tCO2e on 1 January 2026, a ready benchmark for your RM15 assumption.

11. National Climate Change Secretariat Singapore. (2026, July 9). *Carbon tax*. Retrieved November 11, 2026, from https://www.nccs.gov.sg/singapores-climate-action/mitigation-efforts/carbontax/
12. Oil and Gas Climate Initiative. (2025, August 29). *OGCI performance data* (Progress Report 2025, Chapter 4). Retrieved November 11, 2026, from https://www.ogci.com/progress-report/staying-the-course/ogci-performance-data/#greenhouse
13. International Energy Agency. (2025). *Global methane tracker 2025*. https://www.iea.org/reports/global-methane-tracker-2025
14. GHG Protocol. (2025). *Upcoming Scope 2 public consultation: Overview of revisions*. World Resources Institute & WBCSD. https://ghgprotocol.org/index%2ephp/blog/upcoming-scope-2-public-consultation-overview-revisions
15. Webb, S., & Anchondo, C. (2025, February 27). BP embraces oil and gas, snubs renewables in corporate reset. *E&E News*. https://www.eenews.net/articles/bp-embraces-oil-and-gas-snubs-renewables-in-corporate-reset/

3. Online calculators and the online textbook

The two carbon calculators use different Peninsular Malaysia grid factors from your app: MGTC uses 0.740 kgCO2e/kWh (Energy Commission 2022–2024 provisional), Maybank uses 0.78 (2019), and your emission_factors.py uses 0.774. That spread is a good point for your Discussion chapter on why emission factor choice matters.
